You will need 1/3 yard of a cool print for the front and 1/3 of flannel, cloth diaper or terry for the back. That will be enough for 4 maybe 5 bibs. Fat quarters will yield two bibs. Thread and a snap.

Sew front and back right sides together with a double stitch or twice around, but leave a bit open for turning. Trim the seam to 1/8 inch (except near the hole). Turn inside out and press. Edgestitch all around and attach your snap. You are done, but make more!
